# IYAMAH GOODNESS

## SOFTWARE DEV | SMART CONTRACT DEV

Full-stack developer skilled in building scalable web/mobile apps, designing and deploying Solidity smart contracts on EVM, with experience across dApps, APIs, and blockchain integrations. Focused on performance, security, and scalable architecture.

## PROJECTS

• Lockin: A Mobile Application that helps you stay LOCKED IN

to your goals and dreams till you achieve them in

Set time and stores Proof of Growth

• UpNext: Designed a prediction market where users invest

in upcoming talents, turning discovery into tradeable

value. - STOCK MARKET FOR PEOPLE

• GatePass: Developed a decentralized event ticketing app

that eliminates fraud and enables verifiable access.

• AnyPay: Built a universal value router that lets anyone pay

with anything and settle in anything else.

• EaseRent: Built a rent-savings system that auto-deducts

small amounts from transactions, helping users hit rent targets without stress.

• OffSend: Developed an offline-first payment protocol

that guarantees transactions even in poor or

no network coverage.

• Ruguard: Built a security layer for DeFi that prevents rug pulls and

delivers actionable signals to investor

### EDUCATION

Electronic & Computer Engineering
Lagos State University • Lagos • 02/2022-12/2024

+234 807 2027 335
